

MEIBC Comments on – Coffin Assault Case

MEIBC EXCO is joining the peace loving and non racial society of our country who condemn racist behaviour demonstrated by the Middleburg suspects who attempted to lock a men inside a coffin. These backward extremists are a danger to our society and justice should take its course to correct such behaviour to encourage and educate those who are still trapped in the old regime, who still disrespect, undermine and hate fellow human beings based on the colour of their skin. We should all appreciate and encourage the rainbow nation culture and should be an exemplary to the younger and coming generation. History should judge us as a generation who managed to reconcile against all odds and moved forward as a united nation, considering the oppression faced by many during the past regime.

On behalf of our non racial staff of MEIBC and all those members serving in different structures of the Council we distance ourselves from all forms of hate crimes prompted by racial and racist practices. We embrace the rainbow nation and continue with the legacy concept as championed by our past President, the late Dr Nelson Mandela, . . “May his soul rest in peace”
